Acredito que o site funciona sem os dois serviços, ambos são plugáveis.

We are backing everything at power. We might lose power logger and power friends. Is this okay?

O powerLogger serve para logar o acesso ao site e a links especificos, por exemplo saber quantas pessoas clicaram num determinado link na navbar, ou algum botão que deseje saber. O powerfriends é a base da app do orkut PowerFriends, tem os usuarios do powerfriends com suas informações salvas.

São grandes, demora mais de 1 semana para terminar. Mas é possível levantar o site sem eles. Leandro, por favor explique ao Steve a utilidade desses dois bancos de dados.

Steve,

Apenas dois arquivos não foram copiados ainda. Os arquivos são dois bancos de dados: Logger e Powerfriends. Eles são muito grandes, 185GB é o tamanho do Logger e 110GB é o tamanho do banco de dados Powerfriends. Perguntei a Leandro e ele disse que o site pode funcionar sem esses dois. Está copiando, mas vai demorar muitos dias ainda.

André

Will we finish everything by tomorrow. IWEB will shut everything off permanently on Monday early morning. We need to have the complete backup finished by Sunday late night.

Thanks,
Steve

I think the website will run without the two services, both are plug-ins.

Regards,

Eric

The purpose of [P]owerLogger is to log access to the website and to specific links, for example to find out how many people clicked on a given link in the navbar, or any button you want to know about. PowerFriends is the basis of the Orkut app Powerfriends, it contains PowerFriends users with their saved information.

They are large, it will take more than 1 week to finish. But it is possible to get the website up and running without them. Leandro, please explain the use of these two databases to Steve.

Steve,

Only two files have not yet been copied. The files are two databases: Logger and PowerFriends. They are very large. 185GB is the size of Logger and 110GB is the size of the PowerFriends database. I asked Leandro and he said that the website can run without these two. They are being copied, but it will take quite a few more days.
